MP017 - Martin Gibbon, SAS Institute March 14th, 2007

Welcome to Episode 17 of The MIFID Podcast, produced by Voices In Business and sponsored by Sun Microsystems.

This week, Phil and Mike speak with Martin Gibbon, Head of Risk Practice, SAS Institute, about some of the key areas requiring attention from an information technology standpoint, as the MiFID deadline approaches.

Martin talks about the innovative solutions SAS is putting in place around some of these areas, including Client Classification, Best Execution and the wider area of Business Intelligence.

More details of what SAS Institute is doing around MiFID can be found at <http://www.sas.com/industry/fsi/mifid/index.html>

MP016 - Dan Frost, Morgan Stanley February 28th, 2007

Welcome to Episode 16 of The MIFID Podcast, produced by Voices In Business and sponsored by Sun Microsystems.

This week, Phil and Mike speak with Dan Frost, Operational Risk Officer at Morgan Stanley in London, about how the Markets in Financial Instruments Directive is likely to affect Institutional Buy-Side firms.

Dan, who focuses on discretionary fund management technology issues within the Morgan Stanley Investment Management Group, gives his perspective on various MiFID Buy-Side issues, including Best Execution, Transaction Reporting, Record Keeping, Client Classification and Order Handling.
